- Responsible for conducting team meetings for updates and planning new efficient strategies for performance improvement.
- Guiding the members of the team to effectively meet the target and enhance objectives and comprehensive performance.

Technical Skills

- Microsoft Fabric
- Power BI
- Snowflake
- dbt
- Git Version Control
- Azure DevOps
- Azure Cloud
- SSRS (Paginated Reports)
- Data/BI Architecture
- Azure Data Factory
- SQL, KQL (Kusto Query Language)
- Python
- Data Modelling, Data Analysis
- Oracle/Microsoft/IBM DB2 Server
- Azure Data Lake/Blob Storage

Soft Skills

Skilled in multi-tasking; including the ability to be flexible and adapt to changes quickly; Ability to work as a team member, as well as independently; Ability to mentor, coach and provide direction to team members.

Certifications

- Microsoft Fabric Analytics Engineer (DP-600)
- Microsoft Azure Data Fundamentals (DP-900)
- Microsoft Power BI Data Analyst (PL-300)
- dbt Fundamentals

Achievements

- CitiusTech's Power BI Expert (Aug 2024)
- Certification of Appreciation by CitiusTech for quality delivery (Feb 2024)
- Certification of Appreciation by CitiusTech for quality delivery (Mar 2023)

Education

PGDM (MBA)

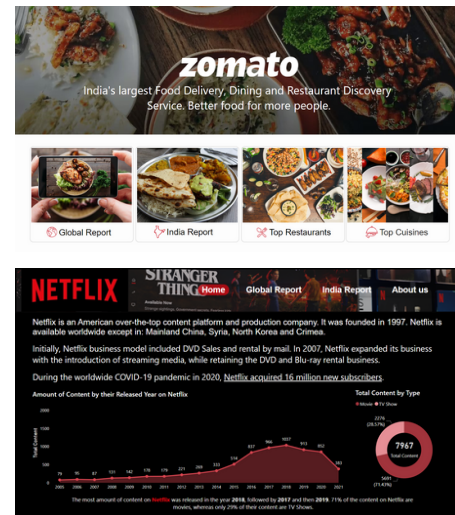

NMIMS Global School | Jun 2020 - May 2022

Bachelor of Computer Applications (BCA), Information Technology

IITM | Jun 2016 - May 2019

Projects

- **Zomato Analysis:** Built highly interactive and dynamic report using Power BI and published on PBI services. Gave UI/UX like Website for better readability to the end client. Did many transformations like currency conversion as there are prices with multiple currency, used bookmarks with drop-down feature for dynamic UI/UX look and many more. (Click on [link](#) for live report)
- **Netflix Analysis:** Built highly interactive and dynamic report using Power BI. Did many transformations like Unpivoted countries and categories columns after Splitting by Delimiter(,), used bookmarks for dynamic look and many more. (Click on [link](#) for live report)
- **Market Analysis Challenge by Maven Analytics:** Built end-to-end BI report from scratch like Connecting & Transforming the source data, building a relational model, adding calculated columns & DAX measures, and designing an interactive report, published to [Power BI Services](#).
- **EDA using SQL:** With complex SQL queries like Joins, Having, Window Functions, Subqueries, Procedures, Views, etc.

Certifications and achievements

Microsoft Certified: Power BI Data Analyst Associate

Microsoft | January 2022

Microsoft Power BI Desktop for Business Intelligence

Maven Analytics via Udemy | December 2021

SQL for Data Analytics & Business Intelligence

365 Careers via Udemy | December 2021

Certificate of Appreciation (Top Performer on Highest Quality Score)

Director, Operations Management - Concentrix | **December** 2019

Certificate of Appreciation (Top Performer on Highest Quality Score)

Delivery Leader, Operations Management - Concentrix | **November** 2019

Certificate of Appreciation (Top Performer on Highest Customer Satisfaction)

Senior Manager, Operations Management - Concentrix | **October** 2019

Certificate of Appreciation (Top Performer on Highest Quality Score)

Director, Operations Management - Concentrix | **September** 2019

Certificate of Excellence (Secured 2nd Position in SPIN-A-WEB Competition.)

TECHTONICS 2018 - IITM, Janakpuri | September 2018

Certificate of Excellence (Secured 3rd Position in Training of Web Technologies using Java.)

ISSAC IT LAB SOLUTIONS LLP | July 2018
